Skilled. Smart. Responsible.
These are traits that describe the ideal mountain snowmobiler.

Skilled enough to ride in technical terrain, smart enough to choose the right terrain for current conditions, and responsible about taking risks.

These values also apply to organizations. At Backcountry Access, we have always felt responsible for not just equipping, but educating those who ride in avalanche terrain. Our goal is to save lives, not just move product. That's why you'll see a big educational component on our website. It's why our sales reps are educators, not slick salespeople. And that's why all our products are supported with training materials and knowledgeable customer service.

Snow safety is all we do. And we've been doing it for almost 20 years. That's why we're the most trusted name in the snow safety business.

FLOAT

AVALANCHE AIRBAGS

Getting educated and carrying the right gear is a big part of our riding style–and should be yours too. An avalanche airbag is the most proactive snow safety tool you can carry into avalanche terrain. Pulling the trigger in the shoulder strap deploys a 150-liter airbag from the top of the pack.

Avalanche airbags are designed to eliminate or minimize burial depth and decrease excavation time by keeping a rider on top or near the surface of an avalanche. Backed by research and supported by BCA's exceptional customer service, the Float Systems are light, affordable and easy to use.

new FLOAT 22 THROTTLE | FLOAT 22 THROTTLE | FLOAT 22

FLOAT 22 THROTTLE™

Designed specifically for snowmobilers.

Features dedicated shovel and probe pockets and waist belt pockets.
Trigger is optimized for snowmobiling by being located on right shoulder strap.
Left-handed use enables you to keep your right hand on the throttle.

PACK VOLUME :: 1,340 cubic inches / 22 liters
WEIGHT :: 5.8 pounds / 2,650 grams (entire system including full cylinder)
4.4 pounds / 2,000 grams (pack, airbag, engine, no cylinder)
2.8 pounds / 1,270 grams (pack only, no airbag, engine or cylinder)
COLOR :: black/yellow, orange

U.S. patent: #7,878,141
*Cylinders are sold separately. *Optional snowboard carry attachment sold as accessory.

FLOAT 22™

Optimized for the hybrid sled-skier.

The Float 22 features a diagonal ski carry system and boasts the same lightweight, low-profile design and layout that's found in the Float Throttle.
Trigger is on the left shoulder strap.

PACK VOLUME :: 1,340 cubic inches / 22 liters
WEIGHT :: 5.8 pounds / 2,650 grams (entire system including full cylinder)
4.4 pounds / 2,000 grams (pack, airbag, engine, no cylinder)
2.8 pounds / 1,270 grams (pack only, no airbag, engine or cylinder)
COLOR :: black/yellow, blue/yellow, and orange.

U.S. patent: #7,878,141 *Cylinders are sold separately. *Optional snowboard carry attachment sold as accessory.

PHOTOS :: BIGSKYX.COM/THUNDERSTRUCK FILMS

FLOAT 32™

Designed to carry the full load of essentials.

Includes big volume, load lifters, dedicated shovel/probe pocket and waist belt pocket. Trigger can be set for the left or right shoulder strap, and hydration can be routed through the non-trigger side.

PACK VOLUME :: 1,950 cubic inches / 32 liters

WEIGHT :: 6.6 pounds / 3,010 grams (entire system including full cylinder)
5.2 pounds / 2,360 grams (pack, airbag, engine, no cylinder)
3.6 pounds / 1,630 grams (pack only, no airbag, engine or cylinder)

COLOR :: black/red, blue/red.

U.S. patent: #7,878,141 *Cylinders are sold separately. *Optional snowboard carry attachment sold as accessory.

FLOAT COMPRESSED AIR CYLINDER

Sold separately. Includes Consumer Refill Kit.

The Float Compressed Air Cylinder is the power and driving force behind our Float System. When the Float trigger is pulled, it activates the release of 2,700 psi of compressed air, inflating the airbag. Always make sure your cylinder is full and hooked up correctly before heading out. Shipped full unless requested empty by purchaser.

WEIGHT FULL :: 1.4 pounds / 650 grams

SNOWBOARD CARRY ATTACHMENT

Attaches to back panel on all Float models.

Carries snowboard horizontally.

EXTENSION STRAP KIT

Includes extension waist belt, sternum strap, and leg loop.

CONSUMER REFILL KIT

Included with each cylinder.

INCLUDES :: Allen wrench, O-ring pick, grease and five O-rings.

Deploy your Float System at least once a season to become familiar with the trigger location and pull force needed to activate the system.

Upload a photo of your most outrageous practice deployment to: ***facebook.com/BackcountryAccess*** *and be entered for a chance to win rad prizes from BCA throughout the season.*

Be sure to exchange for a full cylinder after practicing.

TRACKER

AVALANCHE TRANSCEIVERS

There's a simple reason why BCA is the most trusted name in snow safety: snow safety is in our DNA. We invented the digital multi-antenna avalanche transceiver and now we're taking it to the next level. Our Tracker avalanche beacons are the most widely used in North America and have saved scores of lives. This is what we live for at BCA.

TRACKER AVALANCHE BEACONS

When ease of use matters most

TRACKER3™ TRACKER2™ TRACKER DTS™

RIDER: LINDEN LADOUCEUR
PHOTO: BIGSKYX.COM/THUNDERSTRUCK FILMS

TRACKER3™ new

Tracker's legendary ease-of-use in a smaller package.

The Tracker3's™ foundation is built around the industry's fastest, most precise pinpointing and instantaneous real-time display. It's 20 percent smaller and lighter than Tracker2, with three antennas and no-nonsense multiple burial searching.

WEIGHT :: 7.6 ounces / 215 grams, including batteries, not harness.
DIMENSIONS :: 4.5" x 2.8" x 0.9" / 11.5 cm x 7.1 cm x 2.4 cm
FREQUENCY :: 457 kHz POWER SUPPLY :: Three AAA alkaline batteries
WARRANTY :: 5 years limited

All beacons include harness and batteries. U.S. patent numbers: 6,167,249 & 6,484,021, B

TRACKER2™

North America's best-selling avalanche transceiver.

Our Tracker2™ offers the industry's fastest, most precise pinpointing, with triple receive antenna, instantaneous real-time display, and the same easy-to-use interface as Tracker DTS™. An intuitive mechanical search/transmit switch makes it easy to use right "out of the box." Thinner profile and harness than Tracker DTS™. Includes Special Mode and multiple burial indicator lights.

WEIGHT :: 9 ounces / 255 grams, includes batteries, not harness.
DIMENSIONS :: 5.2" x 3.2" x 1.1" / 13.2 x 8.2 x 2.7 cm
FREQUENCY :: 457 kHz POWER SUPPLY :: Three AAA alkaline batteries
WARRANTY :: 5 years limited

TRACKER DTS™

The world's first digital multi-antenna transceiver.

Tracker DTS™ is the world's most widely used transceiver because of its rapid processor and simple user interface. A real-time, digital display shows both direction and distance with bright red LED's. The distance is shown in meters and indicator lights display the direction of transmitting beacons. The Tracker has established a strong reputation for durability and reliability.

WEIGHT :: 9.2 ounces / 260 grams, including batteries, not harness.
DIMENSIONS :: 5.5" x 3.2" x 1.1" / 14 x 8.1 x 2.8 cm
FREQUENCY :: 457 kHz POWER SUPPLY :: Three AAA alkaline batteries
WARRANTY :: 5 years limited

BACKCOUNTRY ESSENTIALS PACKAGE

Our beacon/shovel/probe package for the entry level backcountry rider.

INCLUDES :: Tracker DTS, B-1 EXT shovel, and Stealth 240 probe.

AVALANCHE SHOVELS
Dig hard. Pack small.

Our bombproof line of shovels have an oval shaft and welded, "ferrule-less" blade, making them stronger and more packable *than any of our competitors. BCA's Bomber and Arsenal shovels are built to get you and your sled out of any terrain that might bog you down.*

B-1

The lightest and most compact BCA shovel.

Our lightest shovel in a fixed-length for the weight-conscious crowd.

WEIGHT :: 1.2 pounds / 525 grams
BLADE DIMENSIONS :: 9.8" x 10" / 24.9 x 25.4 cm
HANDLE & SHAFT LENGTH :: 17.25" / 43.8 cm
ASSEMBLED LENGTH :: 22.5" / 57 cm

B-1 EXT

Our most popular shovel.

Extendable handle and unbeatable strength-to-weight ratio.

WEIGHT :: 1.3 pounds / 600 grams
BLADE DIMENSIONS :: 9.8" x 10" / 24.9 x 25.4 cm
COLLAPSED HANDLE & SHAFT LENGTH :: 16"/40.5 cm EXTENDED :: 22.25"/56.5 cm
ASSEMBLED COLLAPSED LENGTH :: 22.5" / 57 cm EXTENDED :: 28.75" / 73 cm

B-2 EXT

Extendable and packable.

The ultimate tool for those as serious about digging and snow safety as we are.

WEIGHT :: 1.6 pounds / 720 grams
BLADE DIMENSIONS :: 10" x 11" / 25.4 x 27.9 cm
COLLAPSED HANDLE & SHAFT LENGTH :: 16.5" / 42 cm EXTENDED :: 23.25" / 59 cm
ASSEMBLED COLLAPSED LENGTH :: 24" / 61 cm EXTENDED :: 31" / 79 cm

B-52

Our biggest, baddest digging machine.

WEIGHT :: 2.1 pounds / 960 grams
BLADE DIMENSIONS :: 11" x 13.3" / 27.9 x 33.8 cm
COLLAPSED HANDLE & SHAFT LENGTH :: 21" / 53 cm EXTENDED :: 30.5" / 77.5 cm
ASSEMBLED COLLAPSED LENGTH :: 30" / 76 cm EXTENDED :: 40" / 101 cm

BCA recommends taking two shovels into the backcountry: One in your pack that's always with you and one on your sled. That way you don't take off your airbag to dig out a stuck sled.

Check out our instructional video, "Shoveling 101: the ABC's and D of Digging," at ***www.backcountryaccess.com/education***

AVALANCHE SHOVEL SYSTEMS

DOZER EXT™

Dig like a machine.

The ultimate tool for digging out stuck sleds. The Dozer is the most effective hoe shovel available; with positive slip-proof grips on both the shaft and blade. Easily converts to traditional shovel.

WEIGHT :: 2.1 pounds / 940 grams
BLADE DIMENSIONS :: 10" x 11" / 25.4 x 27.9 cm
COLLAPSED HANDLE & SHAFT LENGTH :: 18" / 46 cm EXTENDED :: 24" / 61 cm
ASSEMBLED COLLAPSED LENGTH :: 24.6" / 62.6 cm EXTENDED :: 31.9" / 81.1 cm

ARSENAL EXT SYSTEM™

Locked and loaded for safety.

Wood/snow saw stows in shaft. Arsenal shovel is functional even when the saw is deployed.

WEIGHT :: 1.9 pounds / 880 grams
BLADE DIMENSIONS :: 10" x 11" / 25.4 x 27.9 cm
COLLAPSED HANDLE & SHAFT LENGTH :: 17" / 43 cm EXTENDED :: 23.5" / 60 cm
ASSEMBLED COLLAPSED LENGTH :: 24" / 61 cm EXTENDED :: 30.5" / 77.5 cm
SAW BLADE LENGTH :: 11.5" / 29 cm SAW TOTAL LENGTH :: 16.25" / 41 cm

BCA's Stealth Quick-Lock probes feature the fastest assembly on the market, with no loose cable to cause problems. *The top segment stealthfily nests inside the next probe section, reducing the number of segments–and size–of the probe bundle when disassembled in your pack. Depth markings are on all models for measuring snowpack and/or victim depth to determine the dimensions of excavation area before shoveling.*

STEALTH QUICK-LOCK PROBES

Every second counts

STEALTH 240

Compact, lightweight and economical.

WEIGHT :: 9.5 ounces / 270 grams
EXTENDED LENGTH :: 7' 11" / 240 cm
COLLAPSED LENGTH :: 18" / 45.75 cm
DIAMETER :: .43" / 1.1 cm

STEALTH 270

Our mainstream probe for the advanced recreationalist.

WEIGHT :: 10.9 ounces / 310 grams
EXTENDED LENGTH :: 8' 10" / 270 cm
COLLAPSED LENGTH :: 18.5" / 47 cm
DIAMETER :: .49" / 1.24 cm

STEALTH 300

Our burliest probe for professionals and those traveling in deep snowpacks.

WEIGHT :: 12 ounces / 340 grams
EXTENDED LENGTH :: 9' 8" / 300 cm
COLLAPSED LENGTH :: 19" / 48 cm
DIAMETER :: .49" / 1.24 cm

STEALTH 260 CARBON

Our lightest probe for the weight-conscious crowd.

WEIGHT :: 8.8 ounces / 250 grams
EXTENDED LENGTH :: 8' 6"/ 260 cm
COLLAPSED LENGTH :: 16.5" / 42 cm
DIAMETER :: .403" / 1 cm

BC LINK GROUP COMMUNICATION
Never alone

Strong group communication is the key to any successful day riding the mountains. *Find separated riders, communicate plans, and share observations in real-time with the BC Link group communication system. The Smart Mic user interface is located at your fingertips: push-to-talk button, on/off switch, volume control, battery indicator, channel selection, and earphone jack.*

BC LINK™ new

Safer riding through real-time communication.

System includes radio base unit connected to Smart Mic. Designed to be worn with all backpacks. Optimized for use with BCA's new line of Stash packs.

WEIGHT :: 12 ounces / 340 g
SMART MIC DIMENSIONS :: 3.3" x 1.0" x 1.8" / 8.0 x 4.0 x 4.5 cm
BASE UNIT DIMENSIONS :: 2.5" x 2.0" x 6.0" / 6 x 5 x 15 cm

SMART MIC

- 22 FRS and GMRS channels + 121 sub-channels ensures minimal interference.
- Radio includes option for pre-set channel selections.
- Compatible with all standard FRS/GMRS radios.
- Designed to be worn with all backpacks.
- Secure cord connection and alligator clip for shoulder or sternum strap.
- Glove-friendly controls, optimized for easy handling.
- On/off and volume control.
- Channel control.
- Push-to-talk button.
- Loudspeaker.

BASE UNIT

- Rechargeable 3.7-Volt lithium ion battery provides long battery life.
- Base unit can be clipped to belt or stashed inside backpack.

Designed with the mountain rider in mind, we've updated our popular line of Stash packs to be more durable–and compatible with our innovative new BC Link™ group communication system. *All packs come with a "mud room" for snow safety tools, freezeproof Stash hydration sleeve, and BC Link™ compatibility.*

STASH PACKS
Organized for adventure

STASH THROTTLE | BLACK STASH 20 | BLUE STASH 30 | GREEN STASH 40

STASH THROTTLE™ new

Low-volume pack designed specifically for high-performance riding.
Fleece-lined goggle pocket, accessory pockets, external shovel carry, side pockets for easy access while seated.
VOLUME :: 1,530 cu. in. / 25 liters WEIGHT :: 1.7 lbs / 770 g
COLOR :: Black

STASH 20™ new

In-bounds / outta-bounds pack for aggressive freeriding.
Diagonal ski-carry and vertical snowboard carry.
VOLUME :: 1,220 cu. in. / 20 liters WEIGHT :: 1.8 lbs / 820 g
COLOR :: Black, blue

STASH 30™ new

BCA's most versatile Stash pack for all-day charging.
Fleece-lined goggle pocket, accessory pockets, hip belt pocket, diagonal and A-frame ski-carry, and helmet carry system.
VOLUME :: 1,830 cu. in. / 30 liters WEIGHT :: 2.9 lbs / 1,320 g
COLOR :: Black, blue, green

STASH 40™ new

Pro/guiding/diehard pack for those carrying the full quiver of essentials.
Fleece-lined goggle pocket, accessory pockets, hip belt pocket, diagonal and A-frame ski carry, and helmet carry system.
VOLUME :: 2,440 cu. in. / 40 liters WEIGHT :: 3.1 lbs / 1,410 g
COLOR :: Black, green

BCA STASH DUFFLE

Keep your snow safety gear clean and organized when not in use.
Spacious main compartment with a long side zipper to organize smaller items.
VOLUME :: 3,780 cubic inches / 62 liters WEIGHT :: 2.3 pounds / 1,040 grams
DIMENSION :: 58" x 36" x 30"
COLOR :: Orange, light green, green, light blue, dark blue, red.
*Limited quantities available.

EDUCATION AND SNOW STUDY TOOLS

Elevate your game

Getting educated and gaining an understanding of the snowpack you are riding is a principle we stand by at BCA. *Our snow study tools allow you to make accurate observations as you move through your day. Being prepared, knowledgeable and informed is how we like our customers to roll.*

BCA SNOW STUDY KIT

Durable fabric carry case includes all items below.
Each are also sold separately.

SLOPE METER new

ANGLE RANGE :: 0˚ - 60˚

ANALOG THERMOMETER new

TEMPERATURE RANGE :: -40˚C to 70˚C (-40˚F to 158˚F)

10X MAGNIFYING LOUPE

Uses a folding metal base with glass lens.

ALUMINUM CRYSTAL CARD

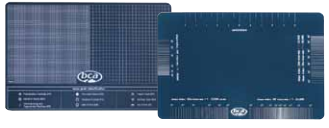
DIMENSIONS :: 6 x 4” / 15 x 10 cm
Includes snow grain classifications, slope angle map tool, and 1 mm and 3 mm grids for snowpack evaluations.

35 CM SAW

Cuts wood and snow.

LEXAN CRYSTAL CARD

DIMENSIONS :: 6 x 4” / 15 x 10 cm
Includes the same graphics as the aluminum card, printed on 2 mm thick Lexan. Ideal for sunny climates.



FIELD BOOK

Developed by the American Institute for Avalanche Research and Education (AIARE), and compliant with the American Avalanche Association (AAA) SWAG standards.

2 METER RULER

Folding ruler for measuring snowpack depths and layers.

EDUCATIONAL DVD’S

THE FINE LINE FROM ROCKY MOUNTAIN SHERPAS
The greatest snow sports athletes join North America’s leading avalanche professionals to bring you a new movement in avalanche education. Includes a rowdy feature film (57 minutes) and four training films about understanding avalanche bulletins, choosing terrain, predicting avalanches, and emergency self rescue.

TAKE CHARGE: LEADING A COMPANION RESCUE FROM BCA AND TGR
Learn how to organize and execute a fast avalanche rescue. Take Charge is an instructional video that demonstrates how to perform a step-by-step avalanche rescue. Focuses on beacon, probe, shovel, and leadership skills (18 minutes).
